

An underground safe area used for managing and monitoring the day to day operation of equipment and production activities.

# Company Profile

MineARC Systems is the global leader in the manufacture and supply of emergency safe refuge solutions for the mining, tunnelling, chemical processing and disaster relief industries.

With 25 years' experience, our dedication to ongoing research and development is driven by our key focus to continually offer the best and most advanced safety solutions on the market.

Our team of qualified engineers, electrical designers and technical experts form a global network across several international locations including:

- Perth, Western Australia
- Johannesburg, South Africa
- Dallas, Texas
- · Santiago, Chile
- León, Mexico
- · Beijing, China
- · Reading, UK

This allows MineARC to provide 24 hour service and engineering support to our expanding list of clients in 70 countries across the globe

All MineARC Refuge Chambers and Safe Havens comply with the highest international regulations and recognised 'world's best practice' industry guidelines. Our key focus on quality control and product advancement has meant that MineARC Refuge Chambers have successfully saved lives in multiple real life industrial emergencies around the globe.

2 MineARC Systems

## **Feature Summary**

#### **Designed for Underground Environments**

**Custom Interior** Based on Client Specifications

**Compact, Transportable Design** 

2mm Steel Plate Construction

50mm Insulation + Air Conditioning

**Power Supply + Electrical Cabinet** 

**Optional Monitoring Systems** 

**5PSI** Blast Rating with Option to Upgrade

#### **Standard Features**

- 2mm Steel Plate Construction
- 50mm Insulation
- Fixed & Adjustable Ventilation Ports
- Compressed Air Management System (CAMS)
- Ventilated Electrical Cabinet
- 2.5kW Air Conditioning

- Viewing Windows
- Forklift Slots & Lifting Rings
- Interior & Exterior Lighting
- Internal GPOs
- Outward Opening Door with Robust Rotating Handle
- · Non-slip Removable Flooring

#### **Custom Interiors**

RocROOM internal features can be selected to meet site requirement, including coal mining environments. Options include: rubberised flooring, a control panel, a ventilated electrical cabinet, internal GPOs, lighting and air conditioning.

The RocROOM can be be fully customised to suit site requirements, providing the ability for the client to fitout the unit to their specifications upon delivery.

### **Optional Features**

- Custom Dimensions & Transport Configurations
- Ergonomically Designed Seating
- Air Conditioner (vortex cooling and forced ventilation using compressed air)
- Adjustable Airconditioning Box for Maintenance
- Aura-FX Digital Fixed Gas Monitoring
- Security Camera & Monitoring System
- Fully Pressurised Airlock
- Battery Backup / UPS
- LCD Display / TV Monitor
- HEPA Filtration
