# The Nest For Nursing Mothers

Designed to provide a comfortable, hygienic and sanitary area for nursing mothers, The Nest provides a dedicated area for expressing milk that is shielded from view and free from intrusion.

The customizable shelter can be built to site requirements, with selection from a range of standard features, additional options and sizes.

The Nest is a private space for nursing mothers. It provides a robust, comfortable and hygienic location for pumping breast milk during shift at industrial or underground workplaces.

The specially designed station offers nursing mothers a sheltered location, accessible by electronic keypad, with necessary provisions including:

- Ergonomic seating
- Refrigeration
- Handwashing station
- Air conditioning
- Lighting
- Storage
- Device charging

The Nest is ideal for site use in locations where there is a need for functional space by personnel or when required for legal compliance.

## Pump at Work

The Pump for Nursing Mothers Act (2022), known as the Pump Act, requires employers to provide reasonable break time for an employee to express breast milk for their nursing child for one year after the child's birth. Employees are entitled to a place to pump at work, other than a bathroom, that is shielded from view and free from intrusion from coworkers and the public.

## Standard Dimensions

Model	Occupancy (persons)	Height (m/inch)	Width (m/inch)	Length (m/inch)	Weight (kg/lb)
MS-UD1-01-NST	1	2.52 / 99"	1.89 / 74"	1.83 / 72"	2,200 / 4,850

Custom dimensions and occupancies available. Station dimensions are ultimately designed to client specifications. Indicative weight only. Custom variations will impact final weight.

# The Nest Features

3/16" (5mm) Steel Plate

Air Conditioning

Air Filtration

LED Lighting

Compact Refrigerator

Stainless Steel Sink

Shatterproof Mirror

Comfortable Seating

Keyless Entry

Power Outlets / USB Ports

Shelving, Coat Hooks

Transportable

The Nest, for nursing mothers is fabricated with 5mm steel plate and the structure features an industrial powder coated finish for easy cleaning and durability. Thermal insulation assists to filter external noise.

The nursing station features a positive pressure system, with filtered air input and check valve exhaust to prevent air contamination and dust intrusion in an industrial or underground setting. Air conditioning is roof-mounted with easily accessible internal controls.

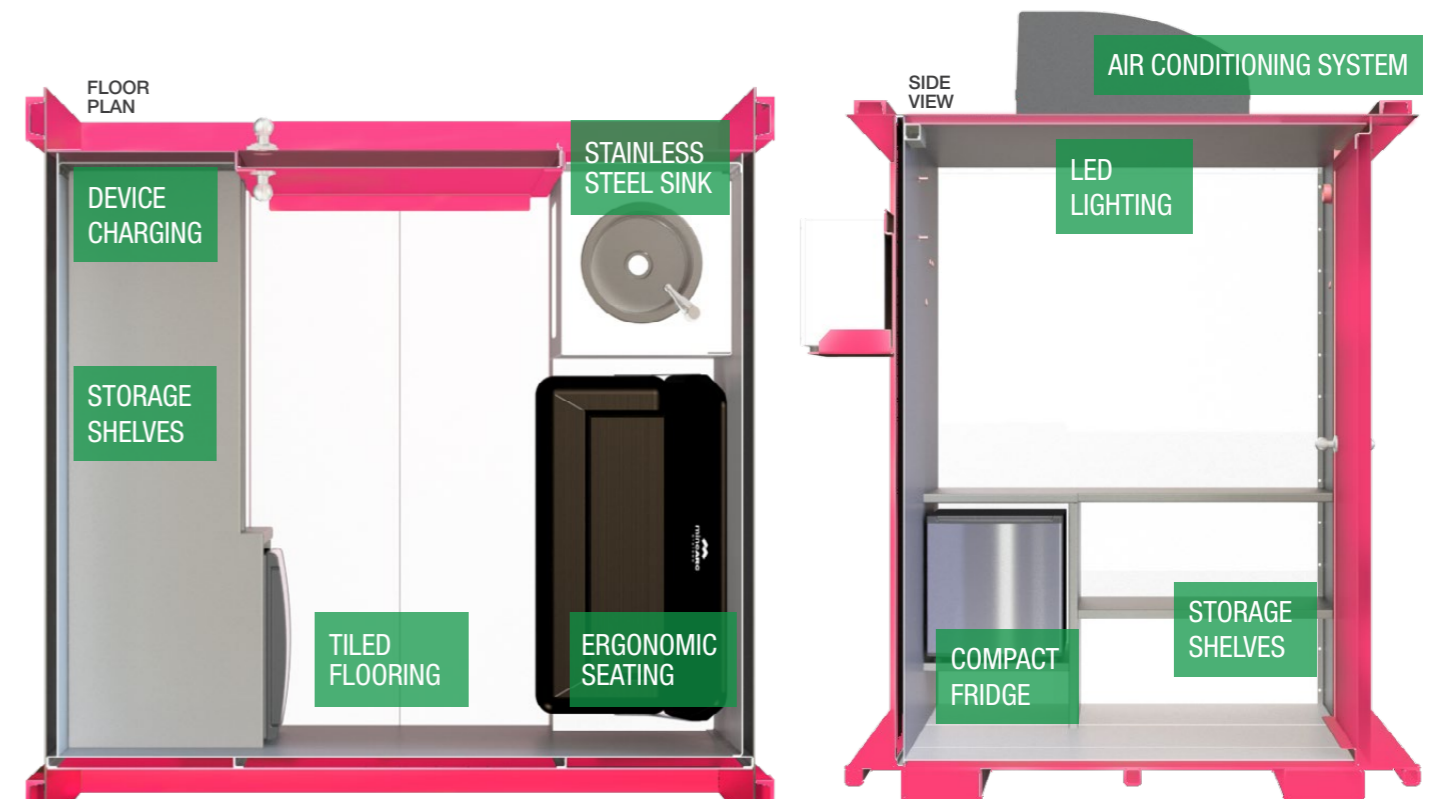

Occupancy lighting is mounted to the exterior face of the refuge and is internally activated. A red LED light signifies occupancy, while a green LED light displays vacancy. Internal lighting is a compact LED design.

A potable water reservoir, sink and metering faucet are standard inclusions for handwashing and rinsing equipment. A soap dispenser, paper towel dispenser, hand dryer (optional) and shatterproof mirror are all wall mounted.

Ergonomic bench seating provides comfort for the user, with marine grade vinyl that is both durable and easy to clean.

Shelving and storage units house a compact fridge for cold storage. Coat hooks are provided to hang uniform items and power points and USB ports are available for electrical items and device charging.

With lifting lugs and forklift slots, The Nest can be easily transported to a suitable location and maneuvered in position. A step-down transformer or back-up battery system can be supplied if required.
